

WHAT IS SCROFULA

It is that impurity in the blood, which, accumulating in the glands of the neck, produces unsightly tumors or swellings, which cause painful running sores, which, if neglected, may develop into cancerous growths, or the many other manifestations usually ascribed to "humors," which, falling upon the lungs, cause consumption and death. Being the most ancient, it is the most general of all diseases of affliction, for very few persons are entirely free from it.

How CAN IT BE CURED

By taking Hood's Sarsaparilla, which, by the remarkable cure it has accomplished, when other medicines have failed, has proven itself to be a potent and powerful medicine for this disease. It is a cure of all diseases of the blood, and all diseases of the skin are really cured. If you suffer from scrofula, be sure to try Hood's Sarsaparilla.

Every spring my wife and children have been troubled with scrofula, some breaking out in the various places. My little boy, three years old, has been a terrible sufferer. Last spring he was one mass of sores from head to foot. I was advised to try Hood's Sarsaparilla, and we have all taken it. The result is that all have been cured of the scrofula, my little boy being entirely free from it, and all of my children look bright and healthy." W. B. Armstrong, Passaic City, N.J.

The Machine Shops Are Ours.

As was announced in our last issue, the committee appointed by the Commercial Club, composed of Hon. D. H. Murray and D. H. Hambleton to conduct the machine shops and draw up the necessary papers for securing the machine shops of this city, held that conference in Louisville last week, and secured an agreement that was perfectly satisfactory to the people, the railroad and the city council.

The committee returned home Tuesday night, and on Wednesday morning made a report of their work. A meeting of the citizens was called for that night to ratify their contract. In the mean time a paper was drawn up and signed by over two hundred voters, pledging themselves to support the proposition which submitted to a vote. This was done to save time and enable the railroad people to go ahead and make necessary arrangements for securing ground and putting up the buildings. The Mayor called the council together Thursday evening, and that body by a unanimous vote submitted the proposition and ordered an election to be held Thursday Oct. 17.

This is about the quickest time on record for the matter, for it was through it and shows that Cloverport is alive and awake on all matters of public spirit and enterprise. The Commercial Club is to be congratulated on its very efficient work in the matter, for it was through it and its committee that the importance of the shops to the community was brought face to face with the people. The club should be sustained in its good work for the upbuilding and improvement of the city.

Henderson Journal is speaking of the importance of the shops to that city, says it took some pains to get exact information as to the number of men connected with them at that place, and that they were of more importance than was supposed. It says:

"The men on the payroll of the shops of 'The Commercial Club,' and actually connected with the shops in the interest of the city were as follows: Carpenters, carpenters and inspectors, 25; machinists, including foremen, 5; engineers and firemen, 25; blacksmiths, 3; coachmen, 2; steam fitters, 2; painters, 2; total 70. This list does not include men employed about the freight and passenger business in Henderson, nor brakemen, conductors, section men and others, but only those who will go with the shops and reside wherever they are located. To this the lowest wages paid were \$30 per month and the highest \$166. Their wages varied from \$10 to \$166. They have all grown men, many of them having families. All of this money is expended in Henderson."

So it will be seen from the above that Cloverport will have a good thing from the start, and that everybody in the town will be more or less benefited by the location of the shops here, and as the business of the road is rapidly increasing it will get better from year to year.

Resolutions.

Adopted by the Breckinridge County Teachers' Institute, session of 1889.

Resolved, That the thanks of the teachers of this Institute be tendered Prof. J. R. Secrest, our Conductor, for his energy and efficient work as an instructor of teachers and Institute conductor. While we appreciate the work of our conductors heretofore, we take great pleasure in recommending Prof. Secrest as one of the most thorough, practical and progressive instructors we have ever had. We will also commend him for his moral, social and religious bearing.

Resolved, That the thanks of the Institute be tendered Miss Harriet Beards as a competent and able teacher, and for her devotion and to the choir who have contributed so much to the pleasure of the Institute.

Resolved, That we tender our thanks to Mr. Miller, County Superintendent, for his efficient management of this Institute, and also to Major C. W. Fowler and Prof. Geo. F. Weidman for the interesting and suggestive suggestions. We will also commend them for the interest given us in regard to our work as teachers.

Resolved, That in the departure of Prof. and Mrs. E. C. Crabbe from our county, the cause of education loses two of its most earnest supporters, and the Institute two of its most prominent members.

Resolved, That we tender our thanks to the citizens of Hardinburg for the cordial reception of the teachers and for having fully honored us with their attendance at the Institute.

Resolved, That a copy of these resolutions be spread upon the minutes of the Institute and a copy of them sent to each of our county papers.
